SUMMARY

Developer who builds responsive websites with HTML, CSS, JavaScript and React, works in WordPress with Elementor and Rank Math SEO, and automates repeated work with n8n and the Gemini API. I built SmartDine AI, a React web app with Gemini-powered features that is live on Vercel, and I published 15,000+ articles on WordPress, so I know how content teams work inside a CMS every day. Looking for a remote role where I build websites and automations that people use.

SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6), React.js, PHP, MySQL, Bootstrap, responsive design, Git, GitHub, Vercel

WordPress & SEO: WordPress, custom theme development, Elementor, Elementor Pro, Rank Math, SEO

AI & Automation: n8n, Gemini API, OpenAI, prompt engineering, Webhooks, OAuth, REST API integration, Google Sheets API, Zapier, Make, JSON, Docker

Backend & Hosting: Secure authentication, database design and query optimisation, Cloudflare, hosting and server management

PROJECTS

SmartDine AI — React.js | JavaScript | Gemini API | Vercel

- AI-powered restaurant web app with food recommendations, smart table reservations, group dining and split billing; live on Vercel.
- Frontend developer on a team of 4; built the interface and integrated Gemini API features: mood-based food recommendations, reasons for each recommendation, and nutrition-related AI.

n8n AI WordPress Publisher — n8n | Gemini API | Docker | WordPress

- Built an automation that picks a topic from a Google Sheet, has Gemini write the article, and creates a WordPress draft with Rank Math SEO meta and an FAQ block.
- Removes the copy-paste steps of publishing a post; runs in Docker and is on GitHub.

AI Customer Support Assistant — n8n | Gemini API | Google Sheets | Gmail

- Workflow that takes a customer message from a form, logs it to a Google Sheet, and has Gemini summarize it and check whether it is urgent.
- Sends a Gmail alert for urgent messages, and saves messages Gemini is unsure about for human review.

Designmodo Clone — HTML | CSS | JavaScript

- Built a complete responsive website from scratch in HTML, CSS and JavaScript.
